2017 Tree Removal/Replacement Grant Program

The City of Kimball is participating in the 2017 Tree Removal/ Replacement Grant Program. The program is being funded by the South Platte Natural Resource District and the City of Kimball. Funds are required to be matched by the applicant. **Each tree that is removed MUST be replaced – either by replacing on the property where the trees were removed or by planting a tree on public property.**

So that as many citizens as possible can take part in this program, please note that this year there is a limit of \$750 per grant application and one grant application per family.

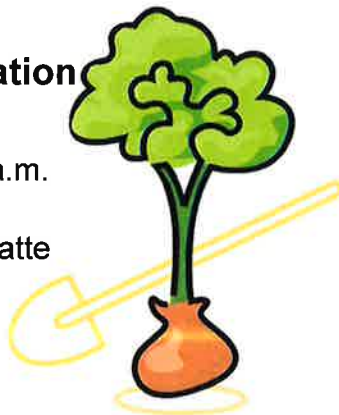

Removal of trees must be completed by a licensed tree removal service. A bid from the tree service company must be attached to the application. Replacement tree type and placement must be approved prior to planting. Tree stump removal is not eligible for grant funds. Photos of the trees prior to removal and the new trees are required to be submitted with the application. Payments will be made directly to the tree removal service and the approved tree suppliers.

Approval of the application is solely the City of Kimball's decision. Applications may be funded wholly or in part at the discretion of the City of Kimball. Applications are available at City Hall, 223 S. Chestnut Street, or on our website at www.kimballne.org.

Projects must be completed by June 1, 2017.
