HOLIDAY CLOSING

The City Offices and Departments will be closed Monday, February 18 in observance of President's Day.

We have seen an increase in "flushable wipes" and other personal hygiene/ household products causing blockages to the City's sanitary sewer mains.

Many household products are labeled and marketed as DISPOSABLE and/or FLUSHABLE; While these products may be marketed as a convenience item in this way, the truth is that these types of items have the ability to clog and stop up not only the sewer line on your property, but also can cause blockage and service problems in the public sewer system and treatment plant.

Unlike toilet paper, these products **DO NOT** break down once they are flushed. They can cause blockages in your on-site sewer, especially older pipelines that may have greases, roots, or other obstructions already existing. A repair of the on-site sewer line can leave the home owner or business owner with a very costly sewer repair.

The only things you should ever flush down a toilet are human waste (urine & feces) and toilet paper.

Don't Flush Trouble

Baby Wipes Wet Wipes Feminine Products Condoms
Cigarette Butts Grease/Oil Hair Cat Litter

These items belong in the trash can. The label might say "flushable" but disposable wipes and other products are clogging sewer pipes and damaging pumps and aerators.

2019 CityPass is Now Available
