

City of Kimball High Points

January 2018

PLEASE BE AWARE!!

PIPES CAN FREEZE AT 10° OR COLDER

The City of Kimball suggests that you leave a small stream of cold water running:

- At night;
- When you will be gone for an extended time, or
- When no water is being used
- When it is 10° or colder, a stream about the size of a pencil lead, should be enough to prevent a water freeze up. A water freeze can break pipes & water meters.

A new water meter is the customer's responsibility and repairs can cost you \$\$\$.

Please contact the City of Kimball Water Department at 308-235-3639 with any questions.
